## Fees and discounts

1. BSE courses have two **types of fees**:
  - Regular Fee
  - Reduced Fee: PhD students, Master's students, BSE Alumni (BSE Master's graduates, and IDEA and GPEFM doctorate graduates), and those in a situation of unemployment.
2. BSE courses offer the following **types of discounts** for individuals
  - Volume-bound (based on the number of bookings): Multiple Course Selection and Groups
  - Relation-bound (based on the relationship with BSE): BSE Students, Recurring Participants, Recommenders
  - Time-bound (based on the date the booking is confirmed): Early Bird
3. Discounts are cumulative between the three types, but not within the same type.
4. BSE will calculate the total discount based on the type of fee requested (subject to validation by the admissions office).
  - The combined volume and relation-bound discount is capped at 30%.
5. The discounts available for individuals and their conditions can be seen below:

# Company and Institutions Registration

## Fees and discounts

1. BSE executive and summer courses have two **types of fees**:
  - Regular Fee for all Companies and Institutions
  - Reduced Fee
    - For PhD and Master's students and BSE Alumni (BSE Master's graduates) working in the institution that register for the courses.
    - For Competition Authorities and Regulators registering participants in executive and summer courses related to competition economics.
2. BSE offers the following **types of discounts** for companies and institutions:
  - Volume-bound (based on how many bookings the company confirms within the same academic year): Volume
  - Relation-bound (based on the relationship with BSE): Partner
  - Time-bound (based on the date the booking is confirmed): Early Bird
3. By default, BSE calculates corporate registration fees based on the Regular rate, which is compatible with all discounts. If your training plan includes staff eligible for a Reduced Fee, they must be registered separately since this fee type doesn't qualify for Partner or volume discounts. However, these registrations still count toward your company's volume discount for the academic year.
  - The combined maximum discount for volume and relationship-based reductions is capped at 30%.

4. The discounts available for companies and institutions, and their conditions can be seen below:

<b>Discount</b>	<b>Conditions</b>
<b>VOLUME</b>	A specific discount applies when a company or institution funds at least 5 bookings within the same academic year. The discount increases with the number of registered participants, unlocking new discount levels with additional registrations throughout the year.
